GET THE KIDS **OUTSIDE** AND INTO **ADVENTURE!**

An effective way to feed your classroom's motivation is to get the kids outside...and into an environment that encourages them to use their knowledge and physical capabilities. Here's how:

1 The environment is unique, different, fun. It gets everyone working together, helping each other, laughing together.

2 Getting students outside and moving offers a great opportunity to shake up the learning platform.

3 Engage all their senses, challenge their mind and bodies, and get them thinking more creatively for problem-solving.

4 Break down barriers through the self-confidence that comes from conquering a course.

5 Expose both children and teens to strong team-building exercises, as well as leadership skills.

6 Encourage goal setting with everyone involved, and watch as they thrive on a job well done at the end of the day!

Ready to take your lessons to the trees?

Here's what you can get...

Did we think of it all? We'd like to think so!

- 2 hours of climbing and zip lining
- Complimentary tickets for chaperones (10:1 ratio)
- Free bus parking
- All necessary climbing equipment
- A safety briefing and practice time
- Fun times for everyone!

Support for Individuals with Special Needs

We may be able to offer additional free chaperones for your special needs climbers. Please inquire about this at the time of booking.

Let's talk about food!

Everyone is welcomed to bring their own food, snacks, and drinks. Or have it catered by Heritage's exclusive caterer, The Casual Gourmet...just ask us about it!

“I can't say enough about the staff at The Adventure Park. They were so kind and patient with the almost 500 6th graders that hit the trees over a 10 day period. They were organized and efficient in getting everyone harnessed up and through the safety briefing so the students could get climbing and spend as much of their allotted time in the trees as possible. Students, parents and staff have all said this was the best field trip they'd ever been on. “

—Patricia C

DID YOU KNOW...

There are unlimited ways you can build a trip to the Adventure Park into your lesson plan?

Here are some ways you can get creative with this field trip:

Physical Education

It's easy to spark their interest in subjects like fitness, health, physiology, and what the human body is capable of when you can get them moving. Explore everything from strength, stamina, heart rates, and more.

Science

Miss Frizzle and the Magic School Bus doesn't have anything on you; teach them about geology, physics, biology, anatomy, botany, biomechanics... and they'll enjoy this hands-on and "in the field" approach.

Outdoor Recreational Interests

From an introduction to outdoor program planning, to thinking about the role of sports and leisure activities in society these days.

Conservation

Lead a program that will inspire your class to take action for the things they care about. Discuss how to leave no trace, the role between conservation and tourism-based activities, how to develop a conservation program proposal...that's just the tip of the iceberg.

English, Math, History....there are so many ways you can turn this valuable field trip into a valuable lesson while having fun!

THINK OUTSIDE THE BOX WITH YOUR CLASS

Add an “Amazing Place Challenge” to your climb: school programs that are taught by Heritage Museum Instructors and meet state curriculum requirements.

Working in small teams, students will compete to finish a series of tasks before and after their climb. Activities incorporate curriculum standards-based elements and 21st-century skill building, and use the entire Adventure Park experience.

The Forest Challenge

During this competition, participants will be divided into small groups and will focus on developing and sharpening scientific observation skills. Accomplishing a series of tasks related to forest ecosystems and physics, students will explore real-world applications of science in a fun and exciting way. Activities include creating a living food web, conducting a forest assessment, exploring friction, gravity and more.

The Leadership Challenge

Participants will race to complete a series of tasks designed to activate various elements of leadership and 21st Century Skills. Activities that may include, but not limited to, a trust walk, a game of giant Jenga, and a team tarp flip. Students process the experience through observation and reflection questions, helping to hone the skills that will serve them well now and into the future.

PREPARATION CHECKLIST

To get things ready...

- Will you be building this field trip into your lesson plan? Determine what you'll need to make it fun and successful.**
Think about any items you may need to bring along. Please discuss this with us when you are ready to make your reservation.
- Send this PDF to the decision-maker for your school.**
We are available to answer any questions anyone on your team may have.
- Once you have approval, pick a date and call us to make the reservation and put down your group deposit.**
Remember that some of the more popular times for schools (like 9 AM) fill up really fast, so you'll want to get the approval and reservation made as early in the year as possible. There is a \$150 non-refundable group deposit.
- Prepare the communication to parents: we have waivers that must be completed electronically by a parent or guardian before arrival.**
This waiver is available through a unique link we'll send to you at the time of booking, and can be filled out easily by parents online.

And when you get to the park...

- Plan on having all guests arrive 10-15 minutes before your scheduled climb time.**
- Park in the large grass/dirt parking lot across the street from Heritage's main entrance.**
- Get ready to have a blast!**

AND DON'T FORGET...

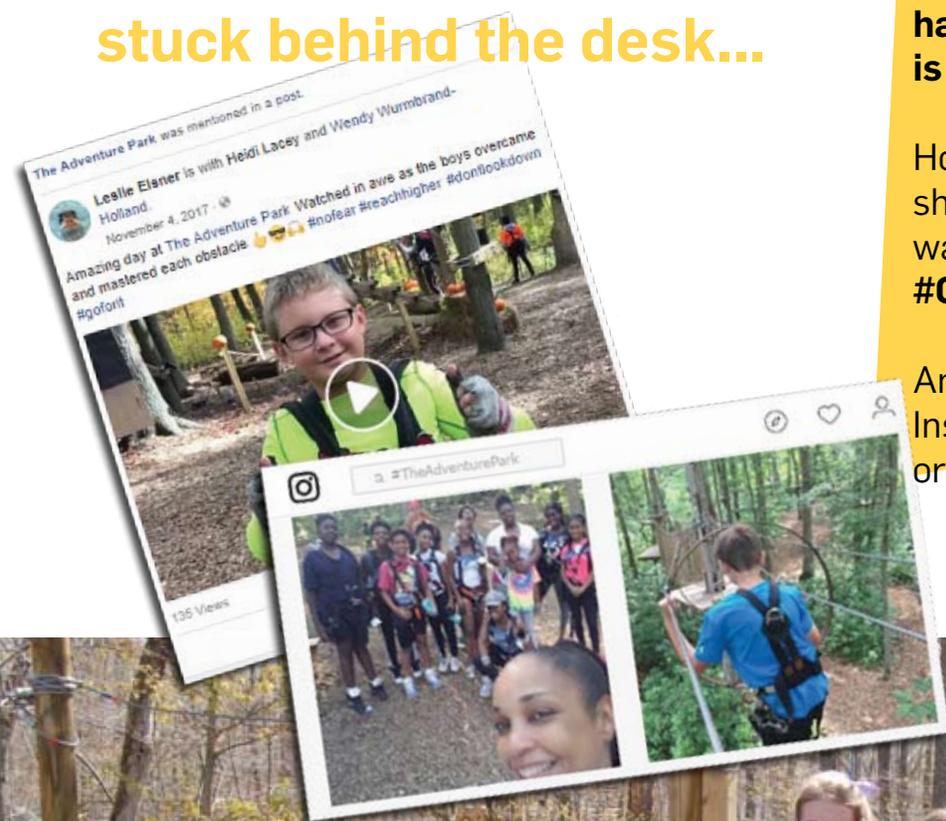

This field trip can make an incredible memory for your students (and you'll be the teacher they remember most, too!)

When everyone else is stuck behind the desk...

Let everyone see the fun you get to have at school, while everyone else is stuck behind a desk! ;)

Hop on to Instagram or Facebook and share your adventure at every step of the way! Be sure to use **#StudentsWhoZip** **#CapeCodTrees** ...

And tag us either at **@Climb_CapeCod** on Instagram or **@CapeCodTrees** on Facebook or so we don't miss it!!
